Indian mathematics emerged in the Indian subcontinent from 1200 BC until the end of the 18th century. In the classical period of Indian mathematics (400 AD to 1200 AD), important contributions were made by scholars like Aryabhata, Brahmagupta, Bhaskara II, and Varāhamihira. The decimal number system in use today was first recorded in Indian mathematics.

I bought this updated, 7th edition because the older version has been such a good reference. The new edition is a very nice update of this classic text, with new results and many new examples. And I am happy to report that I haven't yet found any typos! If you are looking for a text to use for self-study, I would recommend DeGroot and Schervish's "Probability and Statistics" 4th edition, which ...
